Feeding hungry students beyond the holidays at UH Community Colleges

[UH News](#) » [Community](#) » Feeding hungry students beyond...

🕒 December 3, 2018 👤 [UH News](#)

The holiday season is dedicated to spreading cheer for the greater good. We spend time making memories over festive meals, shopping for the perfect gifts for loved ones and donating to our favorite charities.

But the need for charitable giving doesn't diminish after the holidays for those in need—including college students choosing to forgo meals in order to fund their education.

According to a recent [Inside Higher Education](#) story, a 2018 survey of 43,000 students at 66 institutions reported that 42 percent of community college students were food insecure in the 30 days preceding the survey. Although the issue is national, the impact of food insecurity affects the success of students on a local level as well.

While the [Hawai'i Promise Scholarship](#) helps make college affordable by closing the financial gap, student

COLLEGE TEXTBOOK PRICES:

http://www.dailytoreador.com/news/library-student-government-hoping-for-solution-to-expensive-book-prices/article_490647b8-36d1-11e8-a857-9325559e8187.html
<https://www.nbcnews.com/feature/freshman-year/college-textbook-prices-have-risen-812-percent-1978-n399926>

CARDEN/SOURCE: NBC NEWS, HUFFINGTON POST

Students are told to budget between \$1240 - \$1440 for books and supplies each year.

Lewis & Clark State College = \$1,100

What they are actually spending is more like \$415 per year.

Why the difference?

Coping with the Cost

- Purchase an older edition of the textbook
- Delay purchasing the textbook
- Never purchase the textbook
- Share the textbook with other students
- Download textbooks from the internet

What are your biggest cost challenges as a student?

Tuition	61.65%
Course materials	39.56%
Housing costs	38.10%
Food expenses	31.02%
Living expenses	30.18%
Transportation	18.49%
Technology	15.45%
Additional school supplies	7.66%
Daycare	3.04%
Other	2.16%

In your academic career, has the cost of required textbooks caused you to:

64.2%	Not purchase the required textbook
42.8%	Take fewer courses
40.5%	Not register for a specific course
35.6%	Earn a poor grade
22.9%	Drop a course
18.1%	Withdraw from a course
17.2%	Fail a course

BLUEPRINT FOR SUCCESS IN COLLEGE AND CAREER

TAA announces 2019 Textbook Award winners

FEBRUARY 25, 2019 BY ERIC SCHMIEDER

0 COMMENTS

Thirty-one textbooks have been awarded [2019 Textbook Awards](#) by the Textbook & Academic Authors Association (TAA). Four textbooks received William Holmes McGuffey Longevity Awards, 17 textbooks received Textbook Excellence Awards, and ten textbooks received Most Promising New Textbook Awards.

The [McGuffey Longevity Award](#) recognizes textbooks and learning materials whose excellence has been demonstrated over time. The [Textbook Excellence Award](#) recognizes excellence in current textbooks and learning materials. The [Most Promising New Textbook Award](#) recognizes excellence in 1st edition textbooks and learning materials.

The awards will be presented during an awards reception at TAA's [32nd Annual Textbook & Academic Authoring Conference](#) in Philadelphia, PA, June 14, 2019.

Open Textbook Library

[GO](#)

[Browse subjects](#) [Our Textbooks](#) [About us](#)

Make a difference in your students' lives with free, openly-licensed textbooks.

Textbooks every student can access and afford

Open textbooks are textbooks that have been funded, published, and licensed to be freely used, adapted, and distributed. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. These books can be downloaded for no cost, or printed at low cost. All textbooks are either used at multiple higher education institutions; or affiliated with an institution, scholarly society, or professional organization.

The Open Textbook Library is supported by the [Center for Open Education](#) and the [Open Textbook Network](#).

Students Creating the Test Bank

“My small class of 35 students wrote 1400 questions in the span of 10 weeks. ”

The screenshot displays the 'OPEN PEDAGOGY NOTEBOOK' website. The header features the site's name in white on a dark red background, with the tagline 'Sharing Practices, Building Community' below it. To the right, there are links for 'What is Open Pedagogy?' and 'Examples'. A search bar is located on the right side of the page. The main content area shows a blog post titled 'Why have students answer questions when they can write them?' dated March 16, 2018. The post discusses a pedagogical experiment in a Social Psychology class where students created multiple-choice questions. A list of five steps is provided, detailing the process from initial questions to final peer-reviewed items. On the right sidebar, there are sections for 'FIND WHAT YOU'RE LOOKING FOR' with filters for Assignment (7), Course Level (10), Program Level (4), Student Perspective (1), and Textbooks (3), and a 'CONTRIBUTE TO THE NOTEBOOK' section with instructions on how to submit ideas and contributions.

What is Open Pedagogy? Examples

You are here: [Home](#) / [Assignment](#) / Why have students answer questions when they can write them?

March 16, 2018

Why have students answer questions when they can write them?

I recently trialled a new assignment in my Social Psychology class: During each of the 10 weeks when there was no scheduled exam I asked my students to write multiple-choice questions. That's right, they *wrote* questions instead of merely answering them.

From a pedagogical perspective, I really wanted my students to achieve a deeper level of understanding (e.g., the level it takes in order to craft three plausible distractors). However, this assignment also served a pragmatic purpose in that the open textbook that I use for this course (and that I helped revise) does not yet have a readymade question bank. By asking my students to craft and peer-review multiple-choice questions based on the concepts covered that week (and scaffolding this process over the semester), I considered I had a budding open pedagogy project on my hands.

Here's how it went:

1. The students were asked to write 4 questions each week, 2 factual (e.g., a definition or evidence-based prediction) and 2 applied (e.g., scenario-type).
2. For the first two weeks they wrote just one plausible distractor (I provided the question stem, the correct answer, and 2 plausible distractors). They also peer reviewed questions written by 3 of their (randomly assigned) peers. This entire procedure was double blind and performed using Google forms for the submission and Google sheets for the peer review.
3. For the next two weeks they wrote two plausible distractors (the rest of the procedure was the same).
4. For the next two weeks they wrote all 3 plausible distractors (the rest of the procedure was the same).
5. For the remainder of the semester they wrote the stem, the correct answer, and all the distractors.

I adapted existing guidelines about how to write effective multiple-choice distractors and how
